www.smalltechconsulting.com

We have helped dozens of clients succeed in MEMS & Nanotech for companies ranging from the Fortune 500 to small startups, in medicine, biotech, implantables, microfluidics, oil & gas, optics, photonics & displays, consumer products, systems, IOT & more.

We bring early-stage ideas to life and accelerate established businesses and products through our expertise in:

Device & chip design and fabrication		Packaging
Analysis, Modeling and FEA	3D Printing	Invention
Yield & process improvement	Materials	Due diligence
System prototyping	IOT system development	
IP, Business & Market strategy	Grant writing & collaboration	

SmallTech Consulting has a large and expert team of Ph.D. engineers, scientists & entrepreneurs who get in gear on projects combining a wealth of deep and practical experience with a down-to-earth approach.
